

# Bioavailability database

## ----- Academic Program License Agreement -----

Copyright (C) 2010 ADME research team, Institute of Functional Nano & Soft Materials (FUNSOM), Soochow University, All Rights Reserved.

Thank you for your interest in the human oral bioavailability database. The oral bioavailability data in human for 1013 compounds were collected from more than 250 literatures. The large database guarantees the statistical significance of the analysis.

I agree to use the bioavailability database for research purpose only. I will not transfer or redistribution this program to other laboratories. I agree that any public reports or publication of results obtained using the bioavailability database will acknowledge its use by an appropriate citation (*J. Chem. Inf. Model.* 2007, 47, 460-463). This license agreement is only used for user record, and no signature is necessary. Please fill the following user information, and sent it back by email to [admeteam@hotmail.com](mailto:admeteam@hotmail.com)
